You hereby grant to the Journal of Machine Learning Research the following rights with respect to the article described below:

– exclusive right of first publication in all media

– right of subsequent publication in all media

– the right to sublicense or transfer this license to any publisher of Journal of Machine Learning Research.

This license will be valid throughout the world throughout the entire term of copyright in the article, and is granted free of royalty. You will ensure that any dissemination of the article authorized by you gives appropriate first publication credit to Journal of Machine Learning Research.

You explicitly reserve all other proprietary rights with respect to the article, including copyright and patent rights.

If there is more than one author of the article, the word "you" includes all authors jointly and severally. By signing this form, the signatory acknowledges that he or she is the corresponding author; that the signatory is signing on behalf of all authors of the article; and that the signatory has the authority to act as the agent for the other authors of the article.

You warrant that you are the sole author of the article, and generally that you have a complete and unencumbered right to make the grants you make to us. You also warrant that the article does not libel anyone, invade anyone's copyright or otherwise violate any statutory or common law right of anyone, and that you have made all reasonable efforts to ensure the accuracy of any factual information contained in the article. You agree to indemnify us and any sublicensees against any claim or action alleging facts which, if true, constitute a breach of any of the foregoing warranties.

This is the entire agreement between us, and it may be modified only in writing. It will be governed by the laws of the Commonwealth of Massachusetts. It will bind and benefit our respective assigns and successors in interest, including your heirs. It will terminate if we do not publish, in any medium, your article within two years of the date of your signature(s).

Title of Article   On Learning vs. Refutation

Author name(s)   Salil Vadhan

Name of Signatory   Salil Vadhan

My agreement is subject to your acceptance of the attached addendum.

ADDENDUM TO PUBLICATION AGREEMENT

1. This Addendum modifies and supplements the attached or accompanying agreement (the "Publication Agreement") concerning the article titled "On Learning vs. Refutation" (including any supplementary materials, the "Work") in Proceedings of Machine Learning Research.

2. The parties to the Publication Agreement as modified and supplemented by this Addendum are: Salil Vadhan (corresponding author) (individually or, if more than one author, collectively, "Author") and Journal of Machine Learning Research ("Publisher").

3. The parties agree that wherever there is any conflict between this Addendum and the Publication Agreement, the provisions of this Addendum will control and the Publication Agreement will be construed accordingly.

4. Notwithstanding any terms in the Publication Agreement to the contrary, Author and Publisher agree as follows:

   a. All of the terms and conditions of the Publication Agreement (including but not limited to all grants, agreements, representations and warranties) are subject to and qualified by a non-exclusive license previously granted by Author to Harvard University. Under that license, Harvard may make the Work available and may exercise all rights under copyright relating to the Work, and may authorize others to do the same, provided that the Work is not sold for a profit. In the exercise of that license, Harvard may use the Author's final manuscript of the Work (including all modifications from the peer review process), but will not use a facsimile of the final published version of the Work unless Publisher permits use of that version. When Harvard makes the Work available in an on-line repository under that license, Harvard will use reasonable efforts both to cite to Publisher's definitive version of the Work if it has been published, and to link to Publisher's version if it is available on-line.

   b. Where applicable, all of the terms and conditions of the Publication Agreement (including but not limited to all grants, agreements, representations and warranties) are subject to and qualified by any non-exclusive license previously granted, or previously required to be granted, by Author to a funding entity that financially supported the research reflected in the Work as part of an agreement between Author or Author's employing institution and such funding entity, such as an agency of the United States government, and/or to Author's employing institution.

   c. Publisher agrees to provide to Author within 14 days of first publication and at no charge an electronic copy of the published Work in a format, such as the Portable Document Format (.pdf), that preserves final page layout, formatting and content of the final published version. No technical restriction, such as security settings, will be imposed to prevent copying or printing of that copy. The Publisher permits a copy of the final published version to be used in the exercise of the rights and licenses referred to in the paragraphs above.

   d. Neither the existence nor the exercise of the rights and licenses referred to in the paragraphs above will be deemed to violate any representation or warranty or to breach the Publication Agreement.

5. Either publication of the Work or Publisher's signature below will constitute Publisher's acceptance of and agreement to this Addendum.
